Definition of status of Products

is given in Document No. **EUM/PPS/TEN/07/0036 v1 20 March 2007**

IN DEVELOPMENT
Products or software packages that are in development and not yet available to users

DEMONSTRATIONAL
Products or software packages that are provided to users without any commitment on the quality or availability of the service and have been considered by relevant the Steering Group to be useful to be disseminated in order to enabling users to test the product and to provide feedback

RELEASED
Data sets that are made available to users, satisfying largely the applicable requirements, with documented characteristics, validations results and limitations, and that are considered by the relevant Steering Group mature enough for the targeted applications

PRE-OPERATIONAL
Products or software packages that are able to satisfy the majority of applicable requirements and/or have been considered by the relevant Steering Group suitable for distribution to users with documented limitations

OPERATIONAL
Products or software packages that largely satisfy the requirements applicable and/or have been considered by the relevant Steering Group mature enough for distribution to users with documented non-relevant limitations

SUPERSEDED
Products or software packages that have been (pre-) operationally provided to users but are not (pre-) operational anymore because the information of same or superior quality and/or coverage is provided with an other product and considered by the relevant Steering Group as not useful for being continuously provided to the users.

DISCONTINUED
Products or software packages that have been previously (pre-) operationally provided to users but are not (pre-) operational anymore and is considered by the relevant Steering Group as not useful for further dissemination
