CM SAF Operations Report July to December 2013

The [CM SAF Operations Report](#) covering the period July to December 2013 is now available on the CM SAF Webpage. The purpose of the operations report is to provide a summary of operational activities within the reporting period and to outline the operations activities. Furthermore, it gives a summary of User Help Desk (UHD) activities. All Operations Reports back to the beginning of the Initial Operations Phase of CM SAF (which started in 2004) can be accessed via our web page. You can find the reports on www.cmsaf.eu following the link to *Publication & Documentation, CM SAF Documentation and Operations Report*.

EMS side event "Remote Sensing in Climatology"

EMS in collaboration with CM SAF is organising a side meeting "[Remote Sensing in Climatology](#)" during the 14th EMS Annual Meeting & 10th European Conference on Applied Climatology (ECAC), 06 – 10 October 2014, Prague, Czech Republic. This side meeting is intended to provide a platform for climatologists to discuss (potential) applications, exchange experiences, and discuss strengths and limitations of satellite based data.

Interested scientists are invited to present their (potential) applications and share their experiences with satellite based data in the form of brief oral (~5-8 min) presentations or poster hand outs. These contributions will deal as basis for the discussion. Please provide a title, authors and a brief outline of your contribution in advance to cmsaf.training@dwd.de. This will allow us to organize the discussion process along specific issues. Please note, also participation without a specific contribution is welcomed, but please inform us about your intended attendance and field of interest in advance (again via email to cmsaf.training@dwd.de).

The CM SAF team is looking forward to interactive hours with stimulating discussions.

If you do not want to receive the CM SAF newsletter any longer you can cancel it at any time by changing the settings in your user profile on the Web User Interface page <http://wui.cmsaf.eu>
